

## SPECTRA WOOD

Spectra Wood has been crafting quality, American-made furnishings for more than 30 years. To make sure our commercial and industrial furnishings are both durable enough for busy offices and beautiful enough to grace your executive boardroom, we use only solid American hardwoods like red oak, hard rock maple and Pennsylvania black cherry. Every piece we produce is built with old-fashioned attention to detail, using the latest woodworking technology. We pride ourselves on being a large enough operation to handle volume orders yet small enough to give each piece and each customer the care they deserve.

Peanut-shaped Computer Desk with Accessories in Natural Maple.

## SPECTRA WOOD

Use Spectra Wood's exclusive furniture capabilities to demonstrate what makes your company unique. Whether you're looking for furniture with a specific function or a special style — or both — we'll work with you to create exactly the design you need. In addition to our standard American hardwoods, you can choose from an extensive list of wood species like teak, tiger maple, bird's-eye maple and walnut. Our designers will help ensure that your custom pieces will be structurally sound, adding Material Density Fiber, if needed, for architectural-quality stability. Of course, as with all Spectra Wood furniture, you have your choice of attractive finishes and stylish hardware. Our experienced craftspeople will then carefully construct the one-of-a-kind furniture that combines your company's function and form.
